POST GRADUATE SEMINARS
WITH

JEFFREY C. YUEN

Winterthur 6. - 7. May 2000

AKADEMIE für CHINESISCHE NATURHEILKUNST

Sekretariat: Claudine Fontolliet
Postfach, CH- 8800 Thalwil

Tel: 01 - 720 62 90

Fax: 01 - 720 62 71

It is a great honour to announce this first lecture by Master Jeffrey C. Yuen in Switzerland. It is a definite "must" for all practitioners of TCM, of Qi Gong and Tai Chi, to discover the subtler aspects of the body-mind energetics, delivered artfully and with Great Spirit.

J. C. Yuen is extremely well known to the American public. His discourses cover a wide range of topics on various aspects of Chinese Medicine, the Chinese philosophy and religion. The originality of his lectures are due to the wealth of information that he shares with the public, not usually found in the classical text-books. Information that has been mostly kept secret for generations and only orally transmitted in Taoist circles and as such not available to the regular TCM public. His lectures on the Secondary channels, their psycho-emotional patterns and their clinical applications, have consistently kept the audience spell bound.

Program:

- Overview of the Channel Systems
- Luo channels and their clinical applications
- Psycho-Social development reflected through the Luo
- Needling techniques for the Luo Channels
- Specific protocols utilising Luo Channels
- Luo Channels and other Channel Systems

Jeffrey C. Yuen

Obtained his BA in mathematics from Brooklyn College and later studied Anthropology at Columbia University. He is a NCCAOM certified herbalist.

Master J.C. Yuen is the inheritor of a long lineage of Taoist masters. He is an 88th generation master of Yu Ching Lao Pai ordained by Master Yu Wen and 26th generation of Chuan Chen Lung Men Pai ordained by Master Lu Xin Zu. He is very active in the fields of TCM, Taoism, Qi Gong and Tai Chi and currently the chairman of the Eastern US Taoist Association and the president of the International Tai Chi Institute. Besides being adviser on the board of numerous other institutions. Since 83 he has lectured extensively in America and has received several awards for his works in the field of health and TCM.

Date & Place: 6.-7. May 2000 Winterthur (to be specified)

Price: 350.-
